

User's Manual

Which wallets you can use to buy tokens

Tokens can be bought from wallets that support the standard ERC20. The most common wallets are:

- MyEtherWallet
- Ethereum Wallet / Mist
- Parity

Do not buy tokens directly from stock exchanges or exchangers!

Creating a wallet

To participate in the sale you will need an ethereum wallet supporting ERC20. If you do not already have one, we recommend using <https://www.myetherwallet.com>.

1. Go to <https://www.myetherwallet.com>

The screenshot shows the MyEtherWallet website interface. At the top, there is a red banner with the text "DON'T GET PHISHED, please! 🚫 Thank you! 🌟" and two numbered steps: "1. BOOKMARK MYETHERWALLET.COM" and "2. INSTALL EAL or MetaMask or Cryptonite". Below the banner, the header includes the MyEtherWallet logo, version 3.21.15, language selection (English), gas price (4 Gwei), and network (Network ETH). A note says "The network is really full right now. Check Eth Gas Station for gas price to use." The main content area has a title "Create New Wallet" and a "Enter a password" input field with a note "Do NOT forget to save this!". A "Create New Wallet" button is below the input field. To the right, there is a sidebar with a question mark icon and the text "Already have a wallet somewhere?". It lists several options: Ledger / TREZOR / Digital Bitbox / Secalot (using hardware wallet), MetaMask Connect (via extension), Jaxx / imToken (using mnemonic phrase), and Mist / Geth / Parity (using keystore file). At the bottom of the sidebar, there are links "How to Create a Wallet" and "Getting Started".

2. Enter a strong but easy to remember password. Do not forget it. Click the "Create New Wallet"

DON'T GET PHISHED, please!  Thank you! 😊

Create New Wallet

This password encrypts your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet.

[How to Create a Wallet](#) • [Getting Started](#)

Already have a wallet somewhere?

- o Ledger / TREZOR / Digital Bitbox / Secalot : Use your **hardware wallet**. Your device is your wallet.
- o **MetaMask** Connect via your **MetaMask Extension**. So easy! Keys stay in MetaMask, not on a phishing site! Try it today.
- o **Jaxx / imToken** Use your **Mnemonic Phrase** to access your account.
- o **Mist / Geth / Parity**: Use your **Keystore File (UTC / JSON)** to access your account.

3. Download your Keystore file & save this file to a USB drive.

Read the warning. If you understand it, click the "I understand. Continue" button.

DON'T GET PHISHED, please!  Thank you! 😊

1. BOOKMARK MYETHERWALLET.COM | 2. INSTALL EAL or MetaMask or Cryptonite

MyEtherWallet

3.21.15 English Gas Price: 4 Gwei Network ETH (myetherwallet.com)

The network is really full right now. Check Eth Gas Station for gas price to use.

New Wallet Send Ether & Tokens Swap Send Offline Contracts ENS DomainSale Check TX Status View Wallet Info Help

Save your **Keystore** File.

Download Keystore File (UTC / JSON)

Do not lose it! It cannot be recovered if you lose it.
 Do not share it! Your funds will be stolen if you use this file on a malicious/phishing site.
 Make a backup! Secure it like the millions of dollars it may one day be worth.

I understand. Continue.

Not Downloading a File?

- o Try using Google Chrome
- o Right click & save file as. Filename: UTC--2018-06-30T14-0

Don't open this file on your computer

- o Use it to unlock your wallet via MyEtherWallet (or Mist, Geth, Parity and other wallet clients.)

Guides & FAQ

How to See Your Tokens

You can also view your Balances on [https://etherscan.io](#)

Buying ethereum

To participate in the sale you will need an Ether (ETH). You can purchase ETH using Visa or MasterCard bank cards through such services as:

8. Changelly: <https://changelly.com>
9. Cex.io: <https://cex.io>
10. Coinbase <https://www.coinbase.com>

During the purchase you will need the wallet address created in the previous section. All services have different commissions and different rates. Make sure that the exchange rate suits you.

Buying tokens

In order to buy tokens you need to send at least 0.1 ether to the wallet 0xaCF62c626904a17244cA6eEfd31Bf6Eb06895A82. Before sending, make sure that:

1. You send at least 0.1 ETH (depending on the configuration of the sales contract, the value may be different. Look to minInvestedLimit at the corresponding contract).
2. The amount of gas is greater than 250 000
3. Gas price — at least 30 Gwei. Transactions with less gas price will take longer.

If you are using MyEtherWallet, you need to do the following:

1. Go to <https://www.myetherwallet.com>
2. Click "Send Ether & Tokens"
